

Some of the maps in this collection are based on previous work done by Raydar, The Sage, Doubtful, Phantom and likely many more who's names have been lost or forgotten.

They can be viewed and printed using the free Acrobat reader . There is also a set done in MS Word format. Any corrections or errors can be brought to my attention by e-mail at winterhawk@softhome.net or winterhawk@majormud.org

Regen rooms have been marked with the number that regen in that room and highlited with light grey..in the case where other information was more important (an up or down or boss..etc.) just the gray highlite was used.

Winterhawk

12/5/2002 Fixed a room error in Dragons area
